SUPER CONTRIBUTIONS - 2020-21

Contributions above the annual contributions caps will be subject to excess contributions tax levied on the individual.

2019-20 and 2020-21 income year		
Type of contribution	Annual contributions cap - per person (\$)	Excess contributions tax
Concessional	25,000 ¹	N/A ²
Non-concessional	100,000 ⁵	47% ^{3,6}
TFN not quoted ⁴	N/A	47% ³

- From the 2017-18 Financial Year, a concessional contribution cap of \$25,000 applies regardless of age.
- Excess concessional contributions tax no longer applies to excess super contributions made on or after 1 July 2013. From that date, excess concessional contributions are taxed at the taxpayer's marginal tax rates.
- Includes the 2% Medicare levy.
- Where a member's TFN has not been quoted to a super fund by 30 June each year, this "no-TFN contributions income" is taxed at the outlined rate in the hands of receiving fund. A super fund must return non-concessional contributions within 30 days where the member has not quoted a TFN.
- Individuals under 65 may bring forward the non-concessional cap for the next 2 years (up to \$300,000), if their super balance is less than \$1.3M.
- From 1 July 2013, taxpayers have a release option in relation to non-concessional super contributions.

53,564+	Nil	54,837+	Nil

- Assessable income, reportable fringe benefits and reportable employer super contributions.
- If amount payable <\$20, minimum payment = \$20.

Government co-contribution (up to max \$500) is 50% of eligible personal superannuation contribution made to a complying super fund or RSA during income year. Must be under age 71 and lodge a tax return with super balance <\$1.6M and not contributed more than non-concessional contributions cap.

DEPRECIATION/CARS

SMALL BUSINESS ENTITIES - 2020-21

- Immediate write-off the full value of an eligible depreciable asset acquired from 7:30pm AEDT on 6 October 2020 and first used or installed by 30 June 2022 for businesses with aggregated turnover <\$5 billion, but can opt out by choice and claim depreciation under other rules (see below).¹
 - Immediate deduction for depreciating assets costing less than \$150,000²
 - Immediate deduction for depreciating assets costing less than \$30,000³
 - Other depreciating assets allocated to general small business pool⁴
 - Deduction of 50% of cost or opening adjustable value of an eligible asset more than \$150,000⁵
 - Deduction (on diminishing value basis) is generally opening pool balance x 30% for general pool. Half pool rate (i.e. 15%) for new acquisitions (in the first year).
 - Certain depreciating assets are excluded, e.g. buildings.
- Full expensing in the year of first use will apply to new depreciating assets and the cost of improvements to existing eligible assets. Eligible businesses with aggregated turnover less than \$50 million can immediately deduct new or second-hand assets.
 - Eligible businesses with aggregated turnover less than \$500 million, for assets installed and ready for use between 12 March 2020 to 30 June 2021 (extended from the original date of 31 December 2020).
 - Eligible businesses with aggregated turnover less than \$50 million, for assets installed and ready for use between 2 April 2019 to 11 March 2020.
 - Eligible businesses with aggregated turnover less than \$10 million can deduct the entire balance of the pool at the end of the income year while full expensing applies.
 - Eligible business with aggregated turnover less than \$500 million, for assets acquired after 12 March 2020 but before 6 October 2020.

UNIFORM CAPITAL ALLOWANCE SYSTEM - 2019-20 and 2020-21

Decline in value of assets worked out using Prime Cost (PC) method or Diminishing Value (DV) method:

PC method	DV method
Assets cost ¹ x (days held/365 ²) x (100%/Assets effective life)	Base value ¹ x (days held/365 ²) x (200%/Assets effective life)

- Base value is either the cost of the asset (in the first income year) or the opening adjustable value for that year (in later income years).
- *365* does not become *366* for a leap year.

- Apportionment is required in the year of acquisition or disposal and where the asset is also used for non-taxable purposes.
- Pooling for low cost/low value depreciating assets (i.e. cost/value <\$1,000) is 18.75% in the year of allocation and 37.5% pa thereafter.
- Pooling is also allowed for "in-house software" expenditure but it is depreciated at a different rate to the low cost/low value pool.
- Immediate deduction for non-business taxpayer for assets costing \$300 or less.
- Certain assets are excluded from uniform capital allowance system, e.g. buildings, certain primary production assets, and some vehicles.
- Changes applicable with assets eligible for backing business investment incentive
